Dear Captain Murwendhi Suwardi

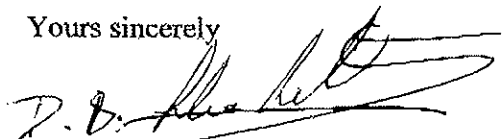

I would like to take this opportunity of thanking you and all your most excellent crew, for your outstanding performance and dedication to duty so readily displayed during the period your vessel has been on charter to (OSI) PT. Offshore Services Indonesia.

As you are aware our clients (EMP KANGEAN Ltd.) expectations and standards have been very high, and whilst we all acknowledge that the AMS Hercules is perhaps a "Mature Lady" requiring constant care and attention, she has under your guidance performed exceptionally well often in very "trying" weather conditions.

Credit for the necessary care and attention to detail in all matter marine, not only must go to the vessel Master and Crew, but also to the "back-up" support provided by the shore based team.

I look forward to having the opportunity of working with you and your crew again on future OSI projects.

Yours sincerely

Derrick B. Hesketh - OSI  
Offshore Construction Manager  
/ Diving Superintendent
